A Queer Divorce Case in Michigan.

From the Cincinnati Commercial. DETROIT, June 30 .- A serio-comic divorce case is now being heard be-fiere the Circuit Court at Chipman. Joseph Hirsch of Hamtrack filed a bill in the Wayne Circuit Court for divorce from his wife Constance on the ground of cruelty. The specified acts of cruelty consist of confirmed scolding, refusing to cook her husband's meals, and many other atro-

In answer to the bill Constance denies in toto the acts of alleged cruelty imputed to her, and avers that she is the ill-treated one of the pair; that Joseph has frequently assaulted and battered her, and called her op-probrious names; that he is generally

Since the case was begun, even since the answer was filed, they continued living in the same house, eating at the same table, &c. Three times, however, since the bill was filed, James has been arrested upon complaint of his wife, and tried before Justice Schweikart for assault and battery. Once he was convicted of plunging a fork into her shoulder, once of hitting her on the head with a piece of scant-ling, and once they settled upon his promise to behave himself.

The Court ordered testimony to be taken before Commissioner Chipman, and it came up for hearing. Both parties appeared. Joseph upbraided his wife severely for leaving home, and the severely for leaving home, and the severely for leaving home. duties to come to town, saying: "What are you doing here? What business have you to leave home! I am here to look after this case."

The testimony was given in a man-ner which convulsed the Court, lawyers, and spectators with laughter.

#### A Statistical Joke.

A census-taker presents himself at a house where all is confusion, and several women are running to and fro with pieces of red flannel, camphor, and the like.

"Have you any children?" says the employe to the agitated head of the household.

"I have two," replies the latter, "and, as it will save you the trouble of calling round again, if you will have the goodness to take a seat for a moment, I will have three—at least three."-Ex.

Hot Pinces in the Comstock Mines, According to the Enterprise, Mr. Mackay says that some of the hottest places ever found in the mines have long since been passed by. These were on the 1200 and 1400 foot levels of the Gould & Curry and bonanza was very little water. On the same short distances apart, there is found to be great difference in the heat of nock. Three holes may be bored in nock. Three holes may be bored in the floor of a drift fifty feet apart, and a thermometer placed in each, when the temperature will probably be found to vary from fifteen to twenty

#### THE SAVINGS BANK.

feeting of Directors Yesterday-L. C B. B. Boyd Appointed Bookkeeper For the Bank-A Statement to be Published in the Course of Time.

At a meeting of the Board of Trusees of the Reno Savings Bank yesterday afternoon, the following resolutions were adopted, and were publishthe Reno Journal this morning:

adverticement in the columns of WHEREAS, It appearing to the Board that the affairs of the Reno Savings Bank are in such a condition that it is imperatively necessary that the business of the corporation be wound up, its assetts and securities realized upon, and the claims of creditors protected and discharged; and it further appearing, because of litigation and attachments and the present state of public feeling, that this Board can better accomplish the end desired, and perform the trust to the creditors and shareholders imposed upon it by law, by the employment of a competent person, under the authority of this

ration; and WHEREAS, it is apparent to the Board that under the existing law in this State, no proceeding is authorized or can be had which contemplates the appointment of a Receiver to wind up will be held as usual this evening in and settle the affairs of the bank on the hall of the Club. JAS. H. KINKEAD, Secretary. Reno, July 17, 1880.

A Cattle Plague Imminent.

From good authority the Eureka Leader is informed that in the northern portion of the State considerable numbers of cattle are dying from the "black-leg" epidemic, which has lately developed itself in that section, and stock men feel no little anxiety that of the Gould & Curry and bonanza the contagion will spread, and in fact mines. This heat was at points where there were soft, decomposing rocks and soft clay—in places where there was very little water. On the same paditp and fatality of a yellow fever scourge. It develops itself in the hoofs and legs of cattle, resulting in a swelling and stiffening of the members, and finally, as it spreads, in death. It is very rapid in its work, stock dying within a few hours of its attack. It seems to be the result of a attack. It seems to be the result of a very virulent animal poison, and the bodies of animals affected with it pu trefy immediately after death.

Rich Strike in the Bullion. The Silver State is informed by Deputy Sheriff Adams, of Paradise, and information is confirmed by Big the information is confirmed by Big Nick, that a very important strike has been made in the Bullion of Paradise mine. Mr. Adams left Spring City on Tuesday, and he says he saw specimens of the ore which were covered with ruby and native silver. The foreman of the mine informed, him that the ore-body had been uncovered for several feet, and the ore was as rich, if not richer, than any ever before found in the mine.

The Washee Suicide.

Coroner Jones yesterday held an inquest at Washoe City over the body of Octave Murray, who committed suicide on Thursday night by cutting his throat. The jury found that the deceased came to his death by his own act, committed while in a fit porary insanity. The remains were brought to Reno and were buried here to day. The decrased was a native of St. Helens, near Quebec, Canada, about 28 years old, unmarried, a laborer by occupation, and had been for some time out of work, living in a cabin at Washoe. Despondency is the only cause assigned for the deed.

a lot ted by the Republican National Convention in cipal on staurday, June 5, 1880:

Republican rule has restored upon a solid on-sis payment in coin for all the national observation as levice of the credit of the credit of the nation from the point where six per cent bonds sold at 86, to that where six per cent bonds are eagerly sought at a premium. I nder its administration railways are increased from \$100,000.000 to \$1,000 miles in 1850 to more than \$20.00 miles in 1850. Unr foreign trade has increased from \$100,000.000 to \$1,000 miles in 1850, were \$261,000,000 more than our imports of the public debt, and dishersed finitely more than \$30,000,000 for in 1850, were \$261,000,000 more than our imports of the public debt, and dishersed finitely more than \$30,000,000 for the public debt, and by relunding the balance of the public debt, and the public d

First. We affirm that the work of the last Iwenty-one years has been such as to commend itself to the favor of the nation, and that the fuits of the costly victories which we have achieved through immense difficulties should be preserved. That the peace regained she sid be cherished. That the dissevered Union, now happily restored, should be perpetuated, and that the liberties secured to this generation should be transmitted undiminished to future generations. That the order established and the credit acquired should never be imperied. That the peasions promised should be paid. That the debt so much reduced should be paid. That the till payment of every dollar thereof. That the reviving industries should be further promoted, and that the cummerce already so great should be standily encodinged.

Second. The Constitution of the United ENUMERATION OF PRINCIPLES. Second. The Constitution of the United tates is the supreme law, and not a mer-impact. Out of the confederated States 1 20 (b) compact. Out of the confederated States 1 made a sovereign nation. Some powers are defined to the nation, while others are retained by the States; but the boundary between the power delegated and those reserved is to be 2 to the compact of the compact of

bunks. The work of popular education is one left to the care of the several States, but at is the duty of the national government to add that work to the extent of its constitutional shifty. The intelligence of the nation is but the aggregate of the intelligence in the several States, and the destiny of the nation must be suited, not by the genius of any one State, but by the average genius of all.

NON-SECTAMIAN SCHOOLS.

Pourth, the constitution wisely forbids

Now-sectable schools.

Fourth, 'The constitution wisely forbids forgress to make any laws respecting an establishment of religion, but it is idle to hope that the nation can be protected against the influence of sectarianism white each State is sposed to its particular domination. We therefore recommend that the constitution of so amended as to lay some probibition upon the Legis, sture of each State, and to forbid the appropriation of public runds to the sup-

or the Legis. attre of each State, and to folbid the appropriation of public funds to the support of sectarian schools.

Itith. We readirn the belief avowed in 1876, that the duties levied for the puppose of creasure should be so discriminate as to favor american isdor. That no further grant of the public domain should be made to any railroad or other exsperation. That viewry flaving perished in the states, its twin barbarity, polygamy, must die in the Territorica. That every have the protoction accessed to a citizens of American Birth in use be secured to citizens of American Robption. That it is the duty of Congress to develop and improve our water-courses and harbors, but we insist that further subsidies to private persons or corporations must cease. That the obligations to the men who preserved its integrity in the day of battle are undamnished by the lapse of auteen years since their final victory. Their perpetual honor is and shall forever be the grateini privilege and the sacred duty of the American people.

Sixth. Since the authority to regulate immigration and intercourse between the
United states and inceign nations rests with
the Congress of the United States and its
treaty-making powers, that the Republican
party, regarding the unrestricted immigration
of the Uninese as an evil of great magnitude,
involves the exercise of the power to restrain
and limit that immigration of the emectment
of such just, humane and ressonable provistons as will produce the result.

Seventh. That the purity and patriotism
which tharscterized the earlier cases of
dutherford B. Hayes in peace and war, and
which guided the thought of his immediate
predecessor to him for a Presidential candidiate, have continued to imspire him in his
career as chief executive, and that history
will accord to his administration the honors
which are one to at efficient, just and course
cons fulfillment of the public business, and
will shoor his interposition between the people and proposed partians laws.

iniquities of the Lemocracy.

Eighth. We charge upon the Democratic party the habitual sucraice of justice and patriotism to a supreme and insaviable lust for office and patronage; that to obtain possession of the nationa, and state governments and of the control of place and position, they nave obstructed all the efforts to preserve the quirty and conserve the irredom of suffrage; asve devised transludent certificates and returns; have inhored to unesat iswfully elected members of Congress, to secure at all hazards the vote of the majority of states in the flowed of Representatives; have endeavored to eccupy by force and fraud places of trust given to others by the people of Maine, and rescued by the courage and action of Maine's patriotic sons; have by methods vicious in principal and tyrannical in practice, attached parties in legasiation to appropriation bills; nave crushed the rights of individuals, and rincipal and tyrannical in practice, attached parties in legasiation to appropriation bills; nave crushed the rights of individuals, and vincipated the principles and sought the fiver of rebellion against the mation, and have and to overcome its inestimable your results—freedom and individual equality. We affirm it us be the duty and purpose of the Republican party to use all the legitimate means of into Union occurs the perect harmony which may be practicable, and we submit to the practical, sensible peoply of the United States to Say whether it would not be denigrous to the Set Intreest of our country at this time to surrender the administration of the national government to a party which seeks to overthrow the existing policy under which we are so prospessus, and any which seeks to overthrow the existing policy under which we are so prospessus, and the seeks to be defined and hepe.
